

DESTRUCTIVE FIRE RAGED IN MILTON

JANESVILLE FIRE DEPARTMENT CALLED OUT.

Were Loaded Aboard Special Train Ready To Start When Notified That She Fire Was Under Control—Small Blaze On South Jackson Street.

Milton village was visited by the most destructive fire in its history yesterday afternoon. At 1:30 o'clock Hon. P. M. Green saw smoke coming out of the east gable of E. A. Holmes' building, occupied by him as a store and dwelling. He gave the alarm and in a few seconds a goodly number were present. There was no one at home, the family having gone to H. E. Holmes' place for dinner. The front doors were broken in at once, but owing to the dense and stifling volumes of smoke it was impossible to locate the fire, but it appeared to be in the room back of the store proper. The desk, safe and a few other articles were got out of that room and some things from the upper floor and cellar, but nothing of much value. The loss to Mr. Holmes and family cannot be estimated in dollars and cents, as it included all the household goods and wearing apparel and many heirlooms that cannot be replaced.

The loss is estimated at \$8,000 with an insurance of \$8,500. The building was built in 1854, was an oak frame and in good repair. A spark from the Holmes' building set Goodrich's tobacco shed, twenty rods away, on fire, and it burned, with four acres of tobacco hanging thereon upon which there was no insurance. Nothing but excellent work on the part of the hundreds who made up the bucket brigade saved the St. Paul depot and tobacco warehouse, Richmond's hotel and Goodrich's barns. The roofs of these buildings and their sides toward the fire were kept deluged with water from hose and buckets. The fire was so hot that it fried the pitch out of knots in the warehouse and depot, and scorched the curtains through the glass in the Richmond house. The roof of Oliver Livingston's house, forty rods away, took fire and several on that street removed their goods and prepared for the worst. Assistance was asked from Janesville and an engine was about ready to start when the fire was got under control.

Much credit is due all who did noble work in saving the property threatened with destruction, and all includes most of the men and boys in town and not a few of the women.

Mr. Holmes and family have the sincere sympathy of the whole community in their great misfortune. The cause of the fire is a mystery. Denton Parks and Villa White, two young men, were overcome by heat and smoke, and for some time were in a serious condition, but are coming out all right.

The ringing of the fire bells in this city yesterday at noon, was the result of the message from Milton, to the effect that the whole town was afire. Chief Spencer lost no time in getting out the engine at the west side fire station and having it loaded aboard a special train. Just as the train was about ready to start a message was received that the fire was under control, and that the Janesville department was not needed.

A Small Blaze

At 6:30 o'clock, last evening the department was called to Mrs. Palmer's home located over Hanley Bros. & Co., wholesale commission house on South Jackson street. A little boy in playing about the room rolled a marble beneath the sofa and in trying to find it a match was lit which ignited the sofa. The damage was about \$15 with no insurance. No one was injured.

WON A GAME OF FOOT BALL

Janesville High School Team Defeats the Whitewater Eleven.

A fair sized crowd assembled at White water Saturday afternoon and saw the High school foot ball team, of this city, defeat the second team of the Whitewater Normal school to the tune of 6 to 0.

It proved the hardest fought game of the season, and the playing was strictly business from start to finish. The Janesville team this year is made up of good material, winning all the games played, as well as keeping visiting clubs from even scoring against them.

The second eleven of the High school met the team from the Jefferson school Saturday afternoon at Athletic park, and were shut out. The score stood 12 to 0.

Snowstorm in Missouri

St. Louis, Oct. 17.—[Special]—A heavy snowstorm is raging throughout central and western Missouri.

London, Oct. 17.—[Special]—A severe storm is raging in the North sea. Several casualties are reported.

The Carpenter's Reproof.

A carpenter, sent to make some repairs in a private house, entered the apartment of the lady of the house with his apprentice. "Mary," the lady—a shrill-voiced, suspicious person—called to her servant, "see that my jewel-case is locked at once!" The carpenter understood. He removed his watch and chain from his vest with a significant air, and gave them to his apprentice. "John," he said, "take these right back to the shop. It seems that the house isn't safe!"

FIGHTING THE STANDARD

George A. Warren Has Been Boycotted By the Great Octopuses
"I am now contending against a boycott," said George A. Warren, the oil man. "The Standard Oil company refuses to sell me any oil unless I sign a contract agreeing to sell no other oil but theirs. I can do better on some lines with other firms and hence do not wish to sign. I regard the Standard's position as very unjust."

ANARCHIST PLOT AGAINST WILLIAM

FULL DETAILS ARE RECEIVED AT BERLIN TODAY

Assassins Proposed to Strike Him As He Entered Mohammed's Palace In Alexandria—The Plot Instigated In Europe and To Be Carried Out By Their Agents.

Berlin, Oct. 17.—[Special]—The government has received confirmation from Egypt of the report of the attempt on the life of Emperor William. It was planned to throw bombs at the emperor when he entered the Mohammed Ali palace in Alexandria. It was found that the anarchists, arrested in Alexandria, were sent there by anarchist societies in Europe.

Constantinople, Oct. 17.—[Special]—The Emperor William is expected to arrive here this afternoon. Owing to the plot against the emperor the police surveillance has been doubled here. The sultan has ordered that the program of the movements of the imperial party while in Turkey be kept secret in order to preclude outrage.

Constantinople, Oct. 17.—[Special]—The emperor did not arrive today as was expected. His yacht was detained by a gale.

A DELAY FOR NANCY

London, Oct. 17.—[Special]—Nancy Guilford was arraigned upon extradition proceedings today and further remanded.

DIFFICULTY IN NICARAGUA.

American Capitalists Meet Obstacles in Formation of Canal Company.

Managua, Nicaragua, Sept. 14.—Messrs. Edwin F. Cragin of Chicago, Edwin Eyer of the firm of W. R. Grace & Co., and Frank S. Washburn of New York city have arrived at this capital.

The object of their mission is to obtain from President Zelaya authority to attempt to organize a company and obtain the necessary capital, estimated at \$100,000,000 in gold, to construct a canal across Nicaragua. President Zelaya has placed them in conference with the acting minister of public works in order to ascertain what they propose to accomplish and what guarantees they will offer in regard to the proposed construction of an interoceanic canal across the peninsula.

There are several obstacles in the way at present that appear insuperable to the organization of a new company. One of these is the fact that the "Maritime Canal company of Nicaragua" is still alive and that its charter is unimpeachable and is to remain in force until October, 1899, according to the company, but only until October, 1898, as claimed by the government of Nicaragua.

Even if the existing concession to the Maritime Canal company of Nicaragua, chartered by the government of the United States, were abrogated, there comes to the front the concession granted in 1897 to the Caribbean and Pacific Transit company, limited, of Liverpool, England (really Leech, Harrison and Forwood of Liverpool), for the exclusive right of steam navigation on the Rio San Juan del Norte for 30 years, with other concessions of lands, timber, etc. This company desires to control not only interoceanic transportation across Nicaragua, but claims the privilege, in its charter, to build and operate a system of railroad and steamboat transportation sufficient to control the interior transportation of the country. With such privileges the English company is not likely to sell out to a new concern, even if the latter succeeds in having the existing charter of the Maritime Canal company annulled.

It is not probable, either, that Nicaragua will grant a canal-constructing charter or concession to any new company until the government is secured by a large sum on deposit as a guaranty and an equally large sum in gold as a bonus, together with a large percentage of the capital stock and the insertion of clauses in the contract placing the entire control of that company under the laws of Nicaragua and binding the company not to appeal to its national government for help in the event of any dispute between the company and the government of Nicaragua.

INDIANS DECIDE TO SURRENDER

LEECH LAKE REBELS AT LAST COME TO TERMS

Will Give Up the Men Wanted By the United States Marshal and Submit to the Authorities—Belief That The Trouble Is Now At An End.

St. Paul, Oct. 17.—[Special]—The Leech Lake hostiles sent a messenger to Walker to notify the authorities that they will surrender all the men wanted except two, and these two will be taken by force by the Indians themselves and turned over to the United States marshal. A complete surrender is looked for by Wednesday.

Minneapolis, Minn., Oct. 17.—The Indian war is over. Commissioner Jones has triumphed and the propriety of his moderate policy has apparently been demonstrated. Sunday the commissioner, accompanied by others, again visited the hostiles on Bear Island, and had a long conference with them. About eighty of the pillagers were present, and all expressed a desire for peace. Having had an opportunity to thoroughly air their grievances, they are apparently satisfied and anxious for the restoration of a peace basis.

Gen. Bacon is still firm in his belief that if the Indians are not taught a lesson now they will soon have to be treated with again, and at no distant day.

MICHIGAN SOLDIER DIES

KEELER AT THE HEAD.

Baltimore Player Leads the League Batsmen.

The baseball record for the season of 1898 has been completed. With the games not hindered by rain or interrupted by darkness the National league clubs rounded out the long 154-game schedule Saturday. No position in the standing depended on the final contests.

The following table shows the finish of the teams this season and a year ago:

	Won.	Lost.	Pct.	Pct.
Boston	102	47	685	705
Baltimore	95	53	644	692
Cincinnati	92	60	605	576
Chicago	85	65	567	447
Cleveland	81	68	544	527
Philadelphia	78	71	523	417
New York	77	73	513	634
Pittsburg	72	76	486	458
Louisville	70	81	461	409
Brooklyn	54	91	372	482
Washington	51	101	336	482
St. Louis	39	110	262	221

Again Willie Keeler of Baltimore heads the batters of the league. The Baltimore grounds and Baltimore scorers have helped him, but on the whole he is well entitled to a high place. Hamilton, Boston's invaluable man, approaches him at no great distance. Keeler's champion figure last year was 432. This year no batter scales the 400 mark. Keeler's average is .391. Hamilton has 374; then follow Freeman, Washington's new Eastern league recruit; Burket of Cleveland and Tenney of Boston.

Prison Reformers Meet.

Indianapolis, Ind., Oct. 17.—The annual congress of the National Prison association has brought together many men distinguished in the work of dealing with criminal classes. Z. R. Brockway, the president of the association, represents the policy of conducting prisons "on the principle of reformation and not of vindictive justice," while the old school—the men in the association who believe in solitary confinement—is represented by Michael J. Cassidy of the Pennsylvania state penitentiary. Nearly all the state boards of charities are represented, and the charity organizations of most of the large cities have sent delegates.

THE NEGOTIATIONS MAY BE SUSPENDED

THERE IS A SERIOUS HITCH OVER THE PHILIPPINES

Spain Insists Upon Retaining Control, But America's Commissioners Will Not Consent—Gomez Has Confidence in the United States—The Colon to Be Saved.

Washington, Oct. 17.—[Special]—There are indications of an entire failure of the Paris peace commission to arrive at a conclusion, and officials here look for a renewal of the war are many weeks have passed. The disagreement is over the Philippines chiefly, but there are some questions involving the future of Cuba that add complications to the situation. Spain insists upon retaining political supremacy in the Philippines; the American commissioners are as strenuous in insisting that the United States shall control affairs. Unless an agreement is reached soon the American commission will withdraw from the conference and expedition will be fitted out for an attack upon the Spanish coast. This expedition will probably be under command of Admiral Sampson, with Schley and Watson as his chief aids. An overwhelming force will be sent, and the program embraces the landing of a force that shall move upon Madrid, where the government will be compelled to yield. It is the unanimous opinion here this plan must be pursued unless Spain speedily submits to the American demand.

CUBA WILL BE INDEPENDENT

Gomez Says That Is the Purpose of the United States

Paris, Oct. 17.—[Special]—Maximo Gomez, the Cuban patriot leader, sends to The Matin a statement relating to the future of Cuba. He says:

"I have the most complete confidence in the solemn engagements made by the congress at Washington.

"I have no doubt of the establishment of Cuban independence. Of course, long days must pass before our dream is realized, but we must be patient and wait until the military occupation by America, necessary for preparing and hastening the evacuation, is terminated.

"During the occupation the independent government will organize itself.

"We are not responsible for the loss of women's and children's lives among the reconcentrados."

WEYLER IS WATCHED.

And He Took One of His Ribs.

A man was recently taken to Lewiston hospital and suffered the removal of a rib. When he came to himself he was told what had been done and seemed satisfied. Shortly after, he dropped into a semi-unconscious state, and kept calling for "the woman." For two days he was delirious, and frequently called for "the woman." "I want to see 'the woman,'" he kept saying. At last the nurse, in desperation, said, "Well, I'm the woman!" The man looked at her from top to toe, and said: "Who would have thought that they could have made such a pretty girl of one of my ribs?" And he settled back on his pillow, and when he awoke again he was in his right mind and was better.

A Klondike Editor's Troubles.

The Klondike Nugget, one of the two papers published at Dawson, laments over the trouble of finding its town subscribers, who pay \$24 a year for the privilege of getting a semi-weekly edition. A paragraph in a recent issue explains the difficulty by saying that it is very hard to find some of the houses according to addresses left at the office. Among those mentioned were "the cabin with the screen door," "the slab house facing the river," "the big tent with two stovepipes," and "the cabin three doors south of where all the dogs are."

PREPARING FOR COMING CONFLICT

ENGLAND AND FRANCE PUTTING ON WAR PAINT

All British Ship Yards Show Extraordinary Activity and Manufacturers Of Arms Are Working Like Beavers—French Are Equally Active—All About Fashoda Affair.

London, Oct. 17.—[Special]—Pending a settlement of the Fashoda affair England and France, according to the best information obtainable, are preparing for war, should there be war. The British admiralty is rushing work on all war ships, and increased activity is noted in the factories devoted to manufacturing arms and ammunition. Reports from Toulon show that the French naval authorities are not inactive. Diplomats, however, say the matter can be adjusted without war. They predict that France will retire from Fashoda, receiving therefor a slice of territory in some other part of Africa.

NINE PERSONS KILLED

Explosion on An English Bark Causes Considerable Loss of Human Life.

London, Oct. 17.—[Special]—An explosion occurred this morning aboard the bark Glenfell. The vessel was destroyed and nine persons lost.

An Up-to-Date Boy.

A 12-year-old boy in a Maine town recently took a mean advantage of a man who did not read the papers. Going into a store with a basket of eggs for sale he inquired the price, and was told they were sixteen cents a dozen. Leaving his eggs he proceeded to another store, whose proprietor evidently had not heard of the reduction in price, and he told the boy eggs were twenty cents a dozen. The boy promptly proceeded to the first-named store, took the eggs he had bought, invested sixteen cents in another dozen and sold the lot to the second store at twenty cents.

Filthy Condition of Havana.

Havana, Oct. 17.—Col. Waring says he will shortly finish his work here and report to President McKinley concerning the sanitary improvements necessary in Havana. He said he was afraid that an accurate description of the condition of the city would be considered sensational. No words could describe it. The work of cleaning the city would have to be carried out as a war measure, though it would cost millions of dollars. There would be no safety against yellow fever until this sanitary work was done.

France Is Expecting Trouble.

Paris, Oct. 17.—The Soleil publishes a dispatch from Toulon which says that Vice Admiral Fournier, who is now at Tunis, with M. Lockroy, minister of marine, will return immediately to Toulon, where orders have been received speedily to prepare the armored cruisers Admiral Trehouart, Bonivines, Jemmapes and Valmy for active service, and also to send to Brest without delay the largest possible number of gunners to man the forts and batteries.

No Deaths at Jackson, Miss.

Jackson, Miss., Oct. 17.—The Jackson record of new cases of yellow fever Sunday was eight. There were no deaths, though some of the sick are seriously ill. Dr. Purnell, who investigated the suspicious sickness at Yazoo City, reports that he found six cases of genuine yellow fever there. The state board of health reports three deaths and nineteen new cases at other points.

Labor Commission Meets.

Washington, Oct. 17.—The commission appointed to study the industrial question for the purpose of recommending legislation to remedy the existing complications between capital and labor will meet here today upon the call of Senator Kyle, the chairman. It is expected that the commission will organize and then adjourn until after the November elections.

Cuban Assembly to Meet.

Santiago de Cuba, Oct. 17.—The meeting of the Cuban assembly at Santa Cruz is fixed for Oct. 30, but, owing to lack of transportation facilities, the members of the assembly will be unable to arrive at Santa Cruz on time, and the end of the month probably will have come before the election of a president and cabinet take place.

Will Use Electricity.

The owners of the famous Cog Road, running up Pike's Peak, have decided to change the motive power from steam to electricity. It is estimated that the cost of making the change will be about \$50,000.

CHICAGO'S PEACE JUBILEE MARRED

RAIN GREATLY INTERFERES WITH THE PROGRAM

The President Visits the University And Receives the Degree of Doctor Of Laws—Goes to the Armory Where He Holds a Reception In the Afternoon.

Chicago, Oct. 17.—[Special]—The first day of the actual jubilee festivities was marred by wet, chilly weather, and the great bicycle parade will probably be abandoned.

The president arose early this morning, and after a hearty breakfast drove to the University of Chicago, where the degree of Doctor of Laws was conferred upon him. President Harper paid a glowing tribute to President McKinley, who according to custom, received the degree with a bow, but making no speech in return. Immediately after the ceremonies at the university were concluded the presidential party drove to the First Regiment Armory, where a public reception will be held this evening. On account of the weather the great bicycle parade scheduled for tonight has been postponed until Thursday night.

ZOLA BACK IN PARIS

Return of the Novelist From His Exile Causes No Perceptible Commotion.

Paris, Oct. 17.—[Special]—Zola arrived last night. His coming caused no disturbance.

Protestant Is Wanted.

Pittsburg, Pa., Oct. 17.—Bishop Joseph C. Hartzell of the Methodist Episcopal church, whose bishopric is in Africa, and who is attending the meeting in this city of the Phi Gamma Delta fraternity, stated last night that he had been commissioned by the negro republic of Liberia to go to Washington and ask that the republic be taken under the sheltering wing of the United States. Threatened inroads upon its territory by the Germans, French and English prompted the government to seek the shadow of the stars and stripes.

Protest Against Divorces.

Anderson, Ind., Oct. 17.—The Episcopal church of this diocese has taken the lead in demanding a revision of the Indiana divorce law. The Episcopalians will interest other church and social purity organizations in the state at once and will present to the next legislature—which meets in eight weeks—a bill which will make Indiana divorces less easy to secure.

Indiana Baptist Convention.

Peru, Ind., Oct. 17.—The sixty-sixth annual convention of the baptists of Indiana closed here Sunday. The reports show that the denomination in this state has 523 churches, 480 Sunday schools, 69 mission schools, 10,397 communicants and 48,392 children and adults in the Sunday schools. The amount expended in Sunday school work was \$12,618.

Turks Are to Leave Crete.

Canoe, Crete, Oct. 17.—The sultan's final orders for the complete withdrawal of the Turkish garrison in Crete have arrived. The foreign admirals refused to allow the landing of the Turkish generals who were appointed by the sultan to superintend the evacuation.

Culver's Men Mustered Out.

Springfield, Ill., Oct. 17.—The command of Col. Culver has been transformed from a regiment of United States volunteer troops into the Fifth regiment, Illinois National Guard. With the discharge from the federal service came the final pay for the men, amounting to \$70,000.

Expects to Raise the Colon.

Santiago, Oct. 17.—Lieut. Hobson expects to have the Cristobal Colon raised by the end of this month. Owing to the heavy sea swell he is operating from land. He has built a trolley line to the ship, a distance of 150 feet. The compressed air pumps are now in position.

For a Hospital at Havana.

Havana (via Key West), Oct. 17.—Mrs. Lane and O'Reilly have made a report to the surgeon-general insisting upon the immediate establishment of an American fever hospital here. The existing hospitals do not isolate yellow-fever patients.

Fire Chiefs Visit Chicago.

Chicago, Oct. 17.—Twenty-five chiefs from cities in Indiana, Michigan, Ohio and Kentucky are the guests of Chief Swenlie. After a short stay in Chicago Chief Swenlie will accompany his guests to St. Louis to attend the annual fire chiefs' convention.

DEMOCRATS ARE BUILDING CASTLES

THEY ARE HOPING FOR SUCCESS IN WISCONSIN

Some Of the Reasons Which They Think Will Tend to Reduce the Republican Vote—Imaginary Defection of the Norwegians—Currency Is the Issue.

The Milwaukee correspondent of the Chicago Times-Herald discusses the prospect of the vote in Wisconsin next month. He says that the result of the contest would largely depend on the way the vote is got out, and the shrewder leaders in various parts of the state are devoting probably more attention to the phase than to any other. Here and there, where there is a sharp fight over county officers, the usual vote will be polled, but where nothing of the kind calls out the voters a very light ballot may be expected. So say those who have made it a business to get around the state and inform themselves as to the conditions in every county.

Republican Victory Sure.

There has been no change in the general situation of late. The republicans will carry the state, but by a greatly reduced plurality. They will also elect at least eight or nine out of the ten congressmen. The people of Wisconsin have no intention of permitting the state to fall away from the sound money position taken so forcibly in 1896, but so far as indications go they will be satisfied with even a small plurality. It is a situation with which politicians are familiar. It is the usual reaction after an overwhelming victory, intensified somewhat by the excitement of the war. A few optimistic democrats predict victory for their party as the result of the marked lack of enthusiasm, but they are only getting in a position to be grievously disappointed. Wisconsin will remain republican.

Hope For a Bolt.

Among other reasons given by some of the democratic leaders for their hope of success is an alleged threatened Norwegian bolt. Each campaign for ten years or more there has been the same report, and each time when the votes were counted it has been found that the Norwegians were, as they always have been, standing steadily by the republican ticket. They will do the same this year. J. O. Davidson, who is probably as well acquainted with the sentiment of that nationality as any man in the state, and who has been all over the state in the last few weeks, says he has yet to find a Norwegian who will vote the democratic ticket. From this it is evident that the nomination of Candidate Stromme by the democrats for the purpose of catching the Norwegian vote is not a glittering success.

Currency the Issue

Chairman Treat is getting the state well organized for effective work. He is also sending out speakers to impress on the voters the importance of the campaign. While meeting the democratic attacks on the republican administration, these speakers do not let the people forget that the election will be in the nature of clinching the sound money nail which was driven home two years ago. As a matter of fact, the platforms of both parties are almost identical on the main state issues. The only distinct issue is the money question.

In order to catch the gold democrats the silver democrats have to keep silent on the money matter; to hold the silver men in line the argument is advanced that even if a democratic congress is elected next month nothing can be done in the way of silver legislation so long as President McKinley is in office, and therefore there is no necessity for pressing this question to the front in this campaign. While there is a high tribute to the president, it is a rather disingenuous way of getting out of a bad hole. Also it does not deceive any one who does not want to be deceived. It is admitted that if there ever is a president who will look with a favoring eye on free silver the party will take up the question and carry it through.

To sum up, the result of the election in Wisconsin next month depends almost entirely on the way in which either or both sides get out their vote. While the republicans have a big plurality left over to go on they will have to do some active hustling on election day if they wish to see any majorities worth mentioning.

THE POOL IS NOW ABANDONED

Sash, Door and Blind Men Cannot Continue Their Issues.

Oshkosh, Oct. 17.—The sash and door pool will not be organized. That now is the opinion of local manufacturers in this line, a change of front having taken place the past few days. The reason given is the difficulty of reconciling the different interests involved, which range from a "forty" of pine through sawmills, box factories, lumber yards, up to an immense sash and door factory.

The respective owners too, all have their ideas as to the value and importance of their properties, and here again the organizers have trouble. The project, to be sure, has not been entirely abandoned, but at this writing, after a full year of patient endeavor, the consensus of Oshkosh sash and door men is that the consolidation will never be consummated.

The local men are sorry, as they favor the project, claiming that by reducing the expenses of buying and selling they could put their goods upon the market at less cost to themselves, and that thus there would be a profit in it for them without necessarily raising prices.

NO FAITH CURE

ABOUT STUART'S DYSPEPSIA TABLETS.

They Cure Stomach Troubles and Indigestion Anyway. Whether You Have Faith in Them or Not.

Mere faith will not digest your food, nor will not give an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and pepsines necessary to the digestion and assimilation of all wholesome food. Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated to 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.

Stuart's Dyspepsia Tablets are sold by nearly all druggists at 50 cents for full sized package, or by mail from the Stuart Co., Marshall, Mich.

No other firm uses the method of roasting employed by Thomson & Taylor Spice Co. on their "T & T" brand coffee. It retains its flavor.

There's a reason for it. Only six months' old and selling more shoes than any other house in Janesville. We have outlived predictions that we did not come to stay. Constant underselling is what brought the business. We sell a ladies' fine vicci kid lace boot, heavy sole, extension edge, new round toe, stock tip, extra high cut, an excellent boot for bicycle riders or any one else who might desire a high cut shoe, our price \$9.95, others will ask \$4. F. L. Quatsoe, advertiser of facts, cor. W. Milwaukee and North River streets.

Our only lever is price. It's the cash customer we are after. We sell men's fine satin calf shoes very soft stock, all leather lined throughout, heavy double soles, extension edge, every pair warranted at \$2 per pair only. Why should you pay other dealers \$2.50 and upwards for this shoe? F. L. Quatsoe, Advertiser of Facts.

Why is it that we can sell the O. Sullivan rubber heels at 29 cents, while others ask 50 cents. It's because we buy in large quantities for spot cash, and do not book business. You do not have to pay for your neighbor's bills here. Here and here only can you buy Foreorder vicci kid dressing for black and tan shoes made expressly for all kid shoes at 12 cents; others will ask you 25 cents; another demonstration that we do undersell. F. L. Quatsoe, advertiser of facts.

MEN SHOULD SEARCH THE SCRIPTURES

REV. MR. HALL'S THEME SUNDAY MORNING

Bible Study Should Form a Part of Every Christian's Daily Occupation Much Spiritual Benefit Is to Be Had From the Practical Diligently Followed.

Rev. Walter A. Hall, of Court Street M. E. church, preached yesterday morning on the great text, "Search the Scriptures." The congregation, large for a rainy morning, listened with close attention. Mr. Hall spoke substantially as follows:

The first reason given for searching the scriptures seems insipidly weak. It is not search the scriptures for in them ye have eternal life, but search the scriptures for in them ye think ye have eternal life. But wait; reserve your judgment a moment. Ponder. I tell you that in this seeming weakness of argument, there is a logic of iron. Jesus is in Jerusalem at a feast of the Jews. He speaks almost exclusively to a people who believe in the scriptures. Herein lies the argument's unanswerable force. You think that in the scriptures you have eternal life, therefore, in order that you may be consistent, search them. I say to a person who believes that "contentment is wealth," be content, or one who believes that industry is the foundation of success, be industrious, and that there is not only reasoning in the argument but profoundest common sense.

Everlasting life has in the word of God its very beginning. For the Christ who saves, and the promises on which saving faith rests, are found in the bible. What the foundation is to the building, that the word of God is to the grand forever life. And not only that, but here this life finds the condition of its growth and perfecting. What splendid summer is to your cabbages and cauliflowers, to your rose bushes and pansy beds, to the fields and the grand forests; that the bible is to the divine life within. Most of you believe this. You have everlasting life; therefore "Search the Scriptures."

The infidel may with true consistency neglect the bible. You certainly cannot. Mr. Hall next spoke of the second great reason given for searching the scriptures. "They are they which testify of me," says Christ. Jesus shines in broken and uncertain reflection like the sun's glamor on the sea, but in much of literature from the word of God shines the true sun Christ like the sun in the sky. Nowhere else is he portrayed so truly and so adequately. To see Christ, to admire Him, to love Him, to imitate Him, yes, best of all to incorporate Him into our very selves, this is privilege, angelic, and this is the highest and best work of the scriptures. Christ is testified to by the whole bible.

Search the scriptures. Mr. Hall spoke of the Klondikers in their search of gold. What they give up and what they endure is past all measurement. They search for treasures ephemeral. He spoke of watching men and boys on the sea beach in the early morning digging clams. Out beyond them the morning was kissing ocean's surface into sapphire glory. Above them the radiance hung, God's loving benediction. They never looked up or out. They were digging clams. Man needs money; but it should not utterly absorb him. Again, the scriptures are to be searched. Mr. Hall spoke of five methods of bible study: Reading carefully, chronologically, studying it by books, reading it topically and committing a certain number of verses daily. Take some system and put at least ten minutes of fresh morning alertness into bible study. Mr. Hall closed with a word picture of Jacob and his dream. From the weary earth a ladder stretched angel fringed to the glorious heaven. That ladder is let down to us. It is God's word and our Savior as portrayed in that word.

A Well-Known Restaurant.

The popular dining rooms of The Mrs. Clark Co., 151-153 Wabash Ave., Chicago, which were recently destroyed by fire, are now open to the public. The place has been very much enlarged, refitted and improved.

For a good meal, in good company, in good quarters, at a modest price, The Mrs. Clark Co., easily ranks among the very first. No one will make a mistake in patronizing this restaurant.

Unfortunate Women.

Women pale and nervous, all dragged out, victims of headache, backache, low spirits, and incapable of taking the least enjoyment in life—such are hundreds of our country today. Now there is no need of this. These women can be cured; life can be made enjoyable for them and happiness their possession. Dr. Greene, 145 State Street, Chicago, Ill., the eminent specialist, is constantly curing such cases as these. Get his advice. You can consult Dr. Greene by mail, free of expense. He can cure you, weak women and weak men. Write to him at once. Don't delay a day.

How to Catch Turtles.

A curious mode of catching turtle is practiced in the West Indies. It consists in attaching a ring and a line to the tail of a species of sucker fish, which is then thrown overboard, and immediately makes for the first turtle he can spy, to which he attaches himself very firmly by means of a sucking apparatus arranged on the top of his head. The fisherman then hauls both turtle and sucking fish in.

RELIEF FROM PAIN.

Women Everywhere Express their Gratitude to Mrs. Pinkham.

Mrs. T. A. WALDEN, Gibson, Ga., writes: "DEAR MRS. PINKHAM:—Before taking your medicine, life was a burden to me. I never saw a well day. At my monthly period I suffered untold misery, and a great deal of the time I was troubled with a severe pain in my side. Before finishing the first bottle of your Vegetable Compound I could tell it was doing me good. I continued its use, also used the Liver Pills and Sanative Wash, and have been greatly helped. I would like to have you use my letter for the benefit of others."

Mrs. FLORENCE A. WOLFE, 515 Mulberry St., Lancaster, Ohio, writes:

"DEAR MRS. PINKHAM:—For two years I was troubled with what the local physicians told me was inflammation of the womb. Every month I suffered terribly. I had taken enough medicine from the doctors to cure anyone, but obtained relief for a short time only. At last I concluded to write to you in regard to my case, and can say that by following your advice I am now perfectly well."

Mrs. W. R. BATES, Mansfield, La., writes: "Before writing to you I suffered dreadfully from painful menstruation, leucorrhoea and sore feeling in the lower part of the bowels. Now my friends want to know what makes me look so well. I do not hesitate one minute in telling them what has brought about this great change. I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is the greatest remedy of the age."

IMPORTED NEGROES ARMED.

Pana Coal Companies Prepared for an Outbreak.

MURDER REVEALS THE FACT.

Major Butler Expects Gov. Tanner to Order the Seizure of Arms and Ammunition—Strikers Express Indignation Over the Situation.

Pana, Ill., Oct. 17.—Great excitement prevails here over the discovery that the imported negroes are heavily armed despite the fact that Maj. Butler was informed that they were disarmed by Capt. Craig a week ago.

The discovery was made through the murder of Isaiah Ross, colored, by John Hawkins, a negro miner employed at the Pana Coal Company's shaft No. 1. The shooting occurred in the company's office, where Ross sought refuge. Hawkins followed at his heels. A moment later Ross fell to the floor with four bullet holes in his body. Hawkins was arrested by Privates Oscar P. Langstaff and John Falt of the Gatling section of battery B. In making the arrest the soldiers discovered that the office was a veritable arsenal, fully 200 Springfield rifles and several thousand rounds of ammunition being stored there.

When these facts were reported to Maj. Butler the latter was at a loss to know what action to take. He had no instructions from Gov. Tanner to search the offices of the three coal companies for weapons, and telephoned to the state capital for orders. "When the governor is apprised of the condition of things," he said, "I have no doubt he will at once order me to take possession of the office and search the shaft for weapons, guns and cartridges."

At the strikers' headquarters great indignation prevailed. When word was sent there that arms and ammunition were secreted in the company's office ready for an emergency they at once sent a committee to wait upon Maj. Butler and enter a protest, on the ground that the union miners and citizens were disarmed when the militia was first sent here, and that it was a rank injustice to allow guns to be kept where the Alabama blacks had free access to them.

Must Treat All Alike.

Springfield, Ill., Oct. 17.—Col. Young, commanding, and Capt. Forman, quartermaster, First Illinois cavalry, now at Virden, held a conference with Gov. Tanner relative to the conditions there. The governor again repeated his instructions that everyone, coal operators, their deputies, miners and all, were to be protected alike by the strong arm of the state militia. The governor told Col. Young that he did not want the militia to take sides in any legal fight, but to let all that be settled in the proper way, through the courts.

May End Joint Traffic Case.

Washington, Oct. 17.—The United States supreme court is expected to render a decision in the Joint Traffic association case, which will be of great importance to the railroads of the country, and which may have the effect of practically reversing the law as laid down in the trans-Missouri case. If the supreme court desires it can reopen the case supposed to have been settled. And it can do this simply by declaring, as counsel assert, that the question of illegality of such agreements was not really argued in the trans-Missouri case, but was assumed at the very beginning, and may be raised in another case, and may be decided without reference to, or reversal of, the former decision. If the court so decides, the main question will then come up: Is the joint traffic agreement in restraint of commerce?

Nearly As Strong as Italy.

Washington, Oct. 17.—According to Chief Constructor Hichborn within three years the American navy will almost equal that of Italy in fighting strength. To substantiate this statement the chief constructor presents figures. Although some of the vessels are not actually laid, provisions have been made by the department to add to the navy eight first-class battleships of the highest power and speed obtainable for ships of their displacement, four coast defense monitors, thirty-six torpedo boat destroyers and torpedo boats, several tugs and smaller types of vessels, besides a practice ship and the cruiser Albany, a sister ship of the New Orleans, now being built abroad.

Knights of Pythias to Meet.

Galesburg, Ill., Oct. 17.—The grand lodge Knights of Pythias opens here Tuesday, and the prospect is for a large attendance, although the peace jubilee in Chicago will diminish the attendance from that city. The number of representatives alone reaches 557, and in addition 300 or 400 past chancellors will be here to take the grand lodge degree. The parade will be given Tuesday morning. It is expected that over one thousand knights will be in line.

Americana Doctors May Practice.

Seattle, Wash., Oct. 17.—Reports are received here that Commissioner Ogilvie has broken up the Canadian physicians' monopoly at Dawson, which action permits Americans to practice there.

Second Illinois Men Ready.

Jacksonville, Fla., Oct. 17.—The Second Illinois men are returning with good tidings from home and expressions of delight at going to Cuba. Most of the furloughs expire this week.

A CONSIDERATE MOTHER.

Realized She Was in No Position to Give Advice Herself.

I had taken a very toothsome but not highly finished dinner at the mountain farmhouse, and when I started on my way at 1 o'clock in the afternoon the daughter, who had looked after my wants at the table, informed me that if I had no objections she would "ride a piece" with me. As she was a good looking, ruddy mountain maid I gave an immediate and unanimous consent, and we were presently jogging along toward the Cumberland river, which we could see lying like a silver thread across the green valley far below us.

"I presume," I said, bowing with as much gallantry as the circumstances would permit, "that if any of your beaux should see us riding together my life would scarcely be safe from their jealous rage."

"Oh, I reckon 'tain't so bad's that, all to once," she laughed in response. "I'm sure they are not so indifferent as you would lead me to think. Pretty girls are not so plenty in the mountains," I smiled, and she blushed.

"Well, I s'pose of Jim wuz here," she hesitated, "it mightn't be such a picnic as it looks, for Jim's mighty bad about me. That's why he ain't here now."

"Why?" I asked, with considerably more interest and not nearly so much bow and palaver.

"He shot a hole through the last feller I rid with and had to take to the woods till he gets well."

This was not altogether as pleasing as it might have been, but I couldn't run away from the lady, so I remained.

"Well," I said in a tone of strong disapproval, "do you intend to marry a man like that?"

"Tain't safe to marry any other—not for him nor me neither, even if I wanted to, which I don't. Jim's plenty suitable for me."

"Does your mother approve of your marrying him?" I asked, hoping somebody might be found who would come to the rescue.

"No," she responded easily; "maw ain't talkin one way ner t'other. She's been married four times and has made such a dratted muss uv it every time that she says she ain't a fittin person to give advice on the marryin question, nohow, even if I wuzn't old enough to do my own pickin an choosin," which seemed to be such an unanswerable argument that I retired from the field. —Washington Star.

He Was Grateful.

Did he threaten to commit suicide when she said it could never be?

Well, hardly. He got up, brushed the dust from the knees of his trousers with a silk handkerchief, and said:

"I feel that you have made a rich man of me."

"Made a rich man of you!" she exclaimed. "How?"

"I shall never marry," he replied. And as he wandered out into the cold world there was just a trace of a smile on his face. —Metropolitan.

SUNK WITH THE MOHEGAN.

Total Death List Placed at One Hundred and Eight.

OFFICIAL STATEMENT MADE.

Fifty-Three Passengers and Sixty-Five Crewmen and Sailors Lost—Chivalrous Attempt to Save the Women Is Responsible for Many Deaths.

London, Oct. 17.—The Atlantic Transport company has issued the following statement regarding the fate of the passengers and crew of the steamer Mohegan, which was wrecked last Friday evening off the Lizard, between the Manacles and the Lowlands:

"Of the passengers eleven have been saved, ten bodies have been recovered and thirty-three are missing. Of the crew and catlemen thirty-nine have been saved, fourteen bodies have been recovered and fifty-one are missing."

Since this was issued twenty-seven bodies have been picked up, including two that have been identified as those of passengers.

The latest advices from Falmouth say that thirty-eight bodies have been identified, mostly the bodies of sailors.

Several are yet unidentified, including those of two elderly women. One appears to be a German. She wore a watch and a wedding ring, both engraved 1871. The other wore a silver brooch, with the letter "D" in pearls.

This is probably the body of Mrs. Chas. Duncan.

Nine of the bodies have been brought to Falmouth, the others to the village church at St. Keverine. The rescued passengers are sheltered at cottages along the shore and the crew at the Sailors' home at Falmouth.

The cause of the disaster remains the profoundest mystery. Nobody attempts to explain how the Mohegan got so far north of her true course— from six to seven miles. There was no fog at the time, while the wind on her port quarter was not sufficient to prevent her answering the helm.

The crew, in a chivalrous effort to save the women, made the mistake of undermanning the boats. There were only four sailors in one boat, which capsized as soon as it was launched.

ABOUT THE REFERENDUM

The Milwaukee Evening Wisconsin—"One unfamiliar with the political affairs of the United States would suppose from reading the platforms of the populist and democratic parties of Wisconsin that the people are denied their plainest rights and oppressed beyond all measure; that they do not know their rights, or knowing them, are too cowardly to demand them of their oppressors and insist upon their acquisition. Among the numerous absurdities and falsehoods of the platforms named are the paragraphs about the 'referendum.' Evidently the politicians who prepared these platforms either do not understand what the 'referendum' really means or else they are not familiar with our fundamental law, for they do not seem to know that the referendum has existed in Wisconsin since its admission as a state, and has been brought into requisition no less than twenty-three times since 1854. The constitution had to be approved by a vote of the people before it went into effect, and it can only be amended by the same process. A new constitutional convention can not be called without a popular vote approving it. The legislature may also provide that any of its own enactments shall not go into effect until approved by popular vote. The 'referendum,' therefore, is with us, although the populist and democratic leaders do not seem to be aware of it. Otherwise their 'demand' can only mean that there shall be no laws which shall not first have had the endorsement of a popular vote. In other words the populist state convention demands that this republic that has become the greatest and freest in the world shall be transformed into a democracy and the democratic convention tamely reiterates the same."

Willis Wheeler is one of Rock county's last sons. He made his mark at the last meeting of the legislature, as one of the leaders of the lower house. His speech placing John C. Spooner in nomination for United States senator, won many compliments, and Mr. Wheeler was known as one of the most influential members of the assembly. He was a member of important committees and served his constituents faithfully and well. They showed their appreciation by renominating him, and the popular verdict will be returned on November 8, in the shape of a very large majority. The office of assemblyman is an important one this year. A United States senator is to be elected. He should be a sound money republican, who will support President McKinley. William G. Wheeler will vote for such a man, while his opponent would support a free silver democrat.

The manufacture of tin-plate in this

country calls for 1,000,000 tons of iron ore; 300,000 tons of limestone, 2,000,000 tons of coal and coke, 400,000 tons of pig iron, 5,500,000 pounds of lead, 13,000,000 pounds of tallow and oil, 40,000,000 pounds of sulphuric acid, and 12,000,000 feet of lumber. It gives employment to 85,000 persons. Yet, says the St. Louis Globe Democrat, a few years ago the democratic press laughed at the American tin industry as a joke and an imposture.

The democrats tell you that free silver and free anarchy is not their campaign slogan. It was, however, two years ago, and the platform reaffirms the principles now. Then why do they misrepresent things? Because they know they face certain defeat and they want to get all the vote they can by hiding as much as possible their true character.

The republican voters of the Third Assembly district of Rock county acted wisely in naming L. Holden Parker, of Beloit, as their candidate for the assembly. Mr. Parker is an exceptionally able man and will make a splendid representative.

No republican need apologize for Gov. Scofield's record. He has made fewer mistakes than many of his predecessors in office, and has attended to his duties faithfully and well. What more could be asked?

The fire alarm democracy presented its right check to the people two years ago, and got a resounding slap. Now they are presenting the other check, and will receive the same application.

Louis Jojade, of La Crosse, has returned from the Klondike. He spent all his money, underwent severe hardships, and found no gold.

Gen. Merritt to Go to London.

Paris, Oct. 17.—The New York World correspondent cables that Gen. Merritt, with his whole staff, will leave Paris today for London, where he will remain ten days on private business. The Matin publishes a statement from Maximo Gomez, who says: "I have the most complete confidence in the solemn engagements made by congress at Washington and have no doubt of the establishment of Cuban independence. Of course long days must pass before our dream is realized, but we must be patient until the military occupation by the Americans necessary for preparing and hastening the evacuation is terminated. During this occupation the independent government will organize itself. We are not responsible for the loss of the lives of women and children among the reconcentrados."

Quoted.

"I won't have you," said the leading lady, tragically, to the low comedian. "Never approach me again on the subject. My mind's made!" "So's everything else about you!" And then he fell through a garden scene to dodge the withering glance she shot at him. —Detroit Free Press.

NEWCOMB LEE AGAIN BEHIND JAIL BARS

ARRESTED SATURDAY CHARGED WITH LARCENY

Was Taken In Custody at Orfordville By Marshal Appleby, of Beloit—Looks Like Another Trip to Wau-pun—Other Cases In Local Courts.

Newcomb Lee, an old offender, who has done time in states prison, is again occupying a cell in the Rock County jail. At Beloit a week ago there was stolen from Matt Whalen a new suit of clothing and an overcoat. The case was laid before Marshal Appleby and the indications are that Newcomb Lee will soon be back in the penitentiary, where he has spent considerable of his time the past ten years. The marshal learned that the stolen goods had been sold to a certain party and in due time he obtained satisfactory evidence to lead him to arrest Newcomb Lee, whom he found last night out near Orfordville.

Two years ago Marshal Appleby arrested Lee for forgery, he having used a farmer's name on a check. For this offense Lee was sent to prison for a year and a half.

A few months before that Lee was released from the prison at Joliet where he had served a term of six years for robbery. Lee had a unique experience at Joliet prison by changing names with a fellow prisoner and he did considerable extra time for his folly.

Lee waived examination and his trial was fixed for the 21st.

Stole a Watch

Willie Clark was brought into court this morning and pleaded guilty to the charge of the larceny of a watch and chain from the person of one Porter, of Milwaukee, which act was committed in this city in the day time this summer. He was sentenced to the industrial school at Waukesha till he attained the age of twenty-one. The Clark boy is a young man who has numerous friends here who will hope that the time spent in the industrial school will make of him a wiser boy. There he will learn a trade, which will be the means of starting him right in the world.

A PAIR OF JACKS. COMING

Good Show Is Offered For Those Fond of Amusement.

The attraction at the opera house Tuesday evening, Oct. 18, will be "A Pair of Jacks." The most successful of H. Gratton Donnelly's force comedies, who also gave us "Natural Gas," and "Later On." "A Pair of Jacks" is so good natured, and it moves with such spirit that the audience has scarcely begun laughing at one bright line or droll piece of business before a new one for laughter is upon them. A Judge Jack and a Doctor Jack constitute "A Pair of Jacks," and the fact of their resemblance to one another brings about the many amusing complications that causes so much fun with the "Two Dromios."

STREET CARS HAVE STOPPED

Accident at the Power House Interferes With Traffic

The Janesville street car line is tied up owing to a break in the machinery at the power house, which took place yesterday morning soon after starting up. The large iron standard on which the engine rests is where the trouble is located.

When the machinery was moved from the old power house on North Academy street it was somewhat damaged as the result of the fire that it went through when the power house burned. The large iron standard on which the engine rests has been weak ever since, and yesterday when it gave out it caused no great surprise. The damage will be repaired at once.

Petit Jurors.

Notice is hereby given that on Wednesday, the 26th day of October, 1898, at eleven o'clock in the forenoon of that day at the office of the clerk of the circuit court for Rock county, at the court house in the city of Janesville in said county, the petit jurors to serve at the November term of the circuit court for said county for 1898, will be drawn in the manner provided by law.

THEO. W. GOLDEN, Clerk.

When Bismarck Lost His Head.

A story is told of Bismarck when he visited London as far back as 1843. He was taken by his entertainers to the noted brewery of Messrs. Barclay & Perkins, as was a certain Austrian general on another memorable occasion. His reputation as a beer drinker had preceded him, and his hosts presented him with an enormous tankard of old ale. The size of the beaker conveyed a challenge which the young champion of the Prussian Junkers was not slow to accept. This is his own account of what followed, as told by him to Sir Charles Dilke: "I seized the tankard," said he, "and I thought of my country and drank to Prussia and tilted it till it was empty. Then I thanked my entertainers—courteously, I hope—and succeeded in making my way as far as London bridge. There I sat down in one of the stone recesses, and for hours the great bridge went round and round me."—New York Post.

THE People's Lecture course opens tomorrow night with the Ladies' Symphony Orchestra, of Boston. This orchestra is composed of twenty-two artists and no finer organization is on the road of this kind.

HAVE you ever been in our store? If you haven't it will do you no harm to come in and see what we are doing. It will not cost you anything to look and if you never come in and look you may be paying \$2.50 for the same shoes we are selling for \$2. Why not come in and see? We like to compare values. We claim to sell the same shoes for \$1.50 that others are asking \$2 for and we claim to sell their \$2.50 lines at \$2 and so on all the way through our stock. Come in and see if this is not true. We sell for cash and cash only, that is why we can do this. F. L. Quatsee, Advertiser of Facts, Cor. W. Milwaukee and N. River St.

Did you ever stop to consider what it costs to do a credit business? Just think of the many people that never pay their bills and the expense of collecting accounts. Some pay in thirty days, some pay in sixty days and some pay in three months and a whole lot never pay. Who pays for all this? The cash customer. Why not trade with a cash store and know that you are not paying your neighbors' bills? That is what enables us to sell the same ladies' shoes at \$1.50 that the others are getting \$2 for and the same ladies' shoes at \$2 that the others are asking \$2.50 for, and so all through the whole stock. COLONEL CALDWELL VISITS COMPANY

CAPTAIN HANSON RECEIVES NO ORDERS

Just When Muster Out Will Take Place Is Still a Mystery—Men Will Assemble Here Wednesday—Local Company May Not Reorganize After Muster Out

Colonel Caldwell, state assistant quartermaster general, arrived in the city this morning and paid the members of Co. A a visit. His coming was in no official capacity, and his visit to the Army was merely to fill in time between trains. Colonel Caldwell stated that he knew nothing definite as to when the muster out of Co. A would take place, but that as long as the work was well under way now in Milwaukee there was little doubt but that Janesville would be in line some time this week. He also stated that he would accompany the muster out officers here for the purpose of checking in all state property.

Wednesday the Date.

Wednesday of this week the company will again assemble here to be given whatever orders are at hand. Colonel Caldwell says that the fact that the different companies are not ready to receive the mustering out officer, is where much of the delay will take place, and on account of this trouble, it may take two days to a company.

The National Guard.

The question that most concerns the First regiment soldiers next to that of being mustered out is the reorganization of the Wisconsin National guard which was called upon to furnish the volunteers and in doing so the state was left without a national guard. The problem that confronts them is whether they will remain in the military organization from which they volunteered, or have they had enough of war and are willing to step to one side and let some one else take a share of the honor. There is now much doubt as to a future military company in Janesville.

ARQUETTE IS HELD BY COURT

Justice Booth Did Not Order His Discharge as Stated.

John Arquette, who is charged with stealing a coat and other valuables from a Beloit boarding house, has had the time of his hearing extended for a week, and gave bail for his appearance. This doesn't look as though he was free of the charge.

Arquette waxed eloquent in the court room in protesting his innocence of the charge lodged against him. "Take your time in the case, judge," he said. "I can wait. I can spend a hundred years in jail if necessary, and not suffer, because I am innocent." But he accepted the privilege of a bail bond.

How the People of Guam Receive the American Invaders.

Guam Letter in Globe-Democrat. As soon as the surrender had been completed permission was given for the officers of the troops on the transports to go ashore, which they did in small boat parties. The first object of interest was the village of Suma, lying around a point of land opposite the place where the Charleston was anchored. There are half a dozen of these villages at points around the bay, this one, however, being typical of them all. When the Charleston began firing the day before the natives were badly frightened and took to their palm and coconut groves for security, but they began to get some idea of the situation of affairs before night and came back to their village. They received another fright immediately after the darkness set in, with the usual tropical abruptness, when the Charleston began flashing her searchlights about the bay and upon the lowering clouds overhead. Again they took to the woods in precipitate haste, and only returned when they realized how harmless the great shaft of light was. By the time the visitors arrived in the afternoon they had recovered from their fright and were pretty well posted as to the situation. They were all dressed in their best and there was none of that absence of raiment which we had been led to believe was the prevailing characteristic of the natives of the Pacific islands. The men wore linen suits and the women cotton and linen dresses, well up to the neck, and even the little children had on all-enveloping garments, similar to the overall which the youth of the Missouri backwoods wear, and are probably the antetype of the famous "Mother Hubbard" gown. The maidens were timid and coy, and confined their observation of the strangers to sly peeps through the windows, but the men, the older women and the children of both sexes and all sizes that swarmed about the village welcomed us with great cordiality and hospitality.

Extraordinary Kleptomani.

One of the strangest cases of kleptomania ever brought to light was heard of in Paris. A certain lady had such a passion for smoking and for coloring meerschaum pipes that she had been for a long time stealing pipes of this description from shops. In the flat which she occupied there was found no fewer than 2,600 pipes, not one of which, it is believed, she had paid for. They were neatly arranged on racks, and thirty-nine were well colored. The court before which she was indicted for some of the thefts would listen to no excuse, but sent her to prison for eight months.

In the neighborhood of one hundred and fifty from this city left today for Chicago to celebrate jubilee week. Tomorrow and Wednesday the greater portion of the crowds will go from here, and all present indications are that a thousand will go from Janesville alone before the week is over.

On the Northwestern road this morning ninety-nine tickets were sold for the early trains aside from several who left at noon.

Ahead of the early vestibule a special train pulled out this morning taking many aboard all along the line. Many waited and went on the accommodation. A vestibule train composed of parlor car and two reclining chair cars elegantly upholstered made a bid for Chicago passengers out of Janesville on the Chicago, Milwaukee & St. Paul road this morning. This train will run also on Tuesday and Wednesday. It makes the run to Chicago in three hours, making only three stops enroute. A large number took passage on the train this morning which goes via Rockford and Elgin. When the Mineral Point passenger arrived in the city this morning fully two hundred were on board bound for Chicago.

HOW A TREATY IS MADE.

It Is a Slow Moving, Monotonous Business.

THE ETIQUETTE TO BE OBSERVED.

Some Famous Treaties and How They Were Negotiated—Paris Has Long Been a Favorite Place for Peace Conventions—High Art in Binding Originals.

Treaty making is a slow, monotonous business, especially the making of peace treaties. The treaty which we are about to negotiate with Spain promises to be no exception to the rule. It will be late in October before the commissioners of the two nations meet in Paris, and, while they will doubtless get to work with as much promptness as can be ex-

pected of such august bodies, it will doubtless be well along into next spring before the document is signed and ratified.

The first important preliminaries, such as the selection of the various commissioners and the choosing of a place of meeting, have already been accomplished. The president is not limited as to who the commissioners shall be or how many he may appoint. Neither is it necessary for him to select the same number as commissioned by our enemy. None of our treaties of peace have thus far been signed by a commission equally divided as to number. Our peace commissioners may be men of almost any position in official or civil life whom the president may select. Of course it would be discourteous to Spain should men of inferior rank and ability be commissioned. It was charged that England endeavored to display her contempt for us by appointing men of little consequence to act for her in the treaty of Ghent, which closed the war of 1812. On this score Spain cannot complain. When we make our secretary of state a member of the commission, we are paying the humbled dons a fine compliment.

There is no strict rule as to the place of meeting during the preparation of the treaty. In the usual order of diplomatic events a neutral state would be selected, but a precedent contrary to this was established for us in 1848 when the treaty concluding the Mexican war was signed in Mexican territory.

The peace commission will have attached to it a secretary with several assistants, private secretaries, stenographers, interpreters and messengers. In 1814, at Ghent, the British commissioners invited our representatives to meet them at the British legation in that city, but our commission refused the hospitality and the long deliberations previous to the signing of the treaty took place in a hotel.

It is an interesting fact to note just here that although the treaty of Ghent was signed on Dec. 24, 1814, it did not reach Washington until Feb. 18, 1815, although it was carried on the fastest sloop of war in the British navy as far as New York. Philadelphia was the first city to celebrate with a peace jubilee which occurred on Feb. 15.

When our commissioners agree with those of Spain on the terms of the treaty now pending, the fact will be

THE MIDNIGHT TREATY WHICH GAVE US ALASKA.

known all through the United States within an hour or two at most after the announcement is made in Paris.

The so called "midnight treaty" by which we acquired Alaska from Russia by the payment of \$7,200,000 was signed in Washington not at midnight, but at 4 o'clock on the morning of March 30, 1867, the final negotiations having lasted all night.

The selection of the French capital as

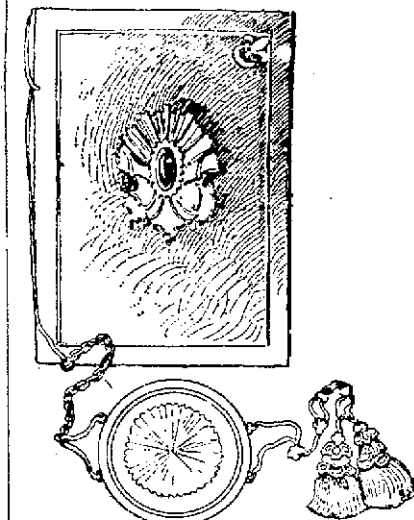

a place of meeting for the commissioners has no particular significance. It was probably done more for the personal convenience of the treaty makers than anything else. Paris of course is an exceedingly nice place to spend a few months in, and peace commissioners should be made as comfortable as possible.

More important treaties have been signed in Paris than in any other city in the world. By the treaty of 1763 the general war between Prussia on the one side and Austria and Russia on the other, with the American, French and Indian war as a side issue, was closed; Canada was ceded to Great Britain by France and Florida by Spain. The treaty of Paris of 1783, between Great Britain and the United States, closed the war of the American Revolution and established the independence of the United States. By the capitulation of Paris, 1814, Napoleon renounced the imperial power; by the convention of Paris, in the same year, between France and the allies, the boundaries of France were fixed as in 1792; by the treaty of Paris, 1815, Napoleon was declared the prisoner of Great Britain, Russia, Austria and Prussia, and his person confined to the first named; the treaty of Paris of 1856 closed the Crimean war between Russia on the one side and Great Britain, France, Turkey and Sardinia on the other. The declaration of Paris, 1856, signed by the great powers, but refused by the United States, abolished privateering, provided for the protection of goods under a neutral flag and declared that a blockade to be binding must be effective.

The first meeting of the two commissions in the present instance will open with a ceremonious exchange of credentials, each commissioner on either side showing his power certified to in writing by his minister of foreign affairs or secretary of state. The credentials of our commissioners will be modest type-written sheets, while those of the Spanish commissioners will be very elaborate and verbose, giving at length the full title of each holder.

The negotiations will probably be interrupted by recesses during which the various commissions will submit knotty and debated points to their home governments. In time, however, all the disputes will be settled and two original copies of the treaty will be drawn up for the dual ratification. According to the etiquette of nations, Spain will take one copy, fix it up with the royal arms and seal, bind it according to Spanish taste and send it to the state department at Washington. Uncle Sam will take the other copy, ornament it with spread eagles, red, white and blue ribbon and such patriotic devices and send it to the Spanish premier.

In this way treaties are often made works of art. We have a good many

A TREATY WITH TURKEY.

original treaties stored away in Washington, and they are as jealously guarded as if they were crown jewels.

The treaty closing the Revolutionary war has a seal box of solid silver six inches in diameter, without ornamentation except for the British coat of arms on the outside. The red silk and gold cord and tassels by which it is attached to the treaty are very gorgeous, although the gold is somewhat tarnished and the silk worn. The seal itself, or what is left of it, is the old seal of Great Britain of St. George and the dragon. Like most of the old seals, it is breaking and crumbling very badly, and from some cause, probably the heat, the impression has become so indistinct as to be hardly recognizable. There is no pretension to engraving in the writing, which is the ordinary British business hand of the period. The first words of the treaty are, "In the Name of the Most Holy and Undivided Trinity." It is signed by George R. The representatives of the United States were John Adams, B. Franklin and John Jay.

Russia is very ceremonious in form, and one of her recent treaties with the United States is finely got up, the seal box being of solid gold and the cord and tassels being heavy and splendid. The Russian side of this treaty is written in French.

Switzerland exercises great care in the writing of her treaties, the engraving being done by a skilled penman. A treaty made with King Leopold of Belgium in regard to the Congo Free State has a cover of crimson, crushed levant morocco. It is very valuable, as the embossing and gold stamping are said to have been all done by hand. A treaty of amity with Turkey in 1862 is written with gold ink, and the Turkish characters, which are made carefully, are very graceful. It begins with the sultan's insignia in gold, four inches across and three inches high.

When this newest and latest treaty of Paris is completed, it will doubtless be bound tastefully and elaborately, as befits its importance. It has been suggested that Uncle Sam inscribe the copy which he sends to Madrid with the significant phrase, "Remember the Maine!" but he will do no such thing. He is too much of a gentleman.

Exposition Has a Surplus. Omaha, Neb., Oct. 17.—A cash balance in bank exceeding \$300,000 now stands to the credit of the trans-Mississippi exposition. There are fifteen days remaining. All railroads in this territory have made one-half-cent a mile rate for the last week of the fair. Today is Odd-Fellows' day, Tuesday German day. With these and other attractions, chief among which is the live stock show, it is certain that the revenues for the remaining fifteen days will more than meet all liabilities, to say nothing of the salvage. Should this prove true stockholders will receive 75 cents for every dollar invested and possibly 90 cents.

Strauss Meets the Sultan. Constantinople, Oct. 17.—The sultan Sunday gave an audience to Oscar S. Strauss, the new United States minister, with the customary ceremonies of reception.

Favorite Stoves The Road To Economy

THE OLD WAY.

In above Flue Construction there are Four Surfaces Radiating Heat.

Above cut illustrates the arrangement of Bottom Flues in nearly all base burners, showing the Heat is not Equally Distributed.

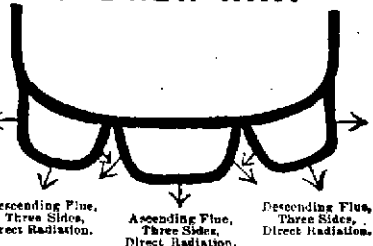

The "Favorite" Base Burner has More Heating Capacity and is the Most Economical Stove ever made. Why? Because it has about 1/2 more Radiating Surface as compared with same sizes of other base burners, and is Mounted and Fitted Perfectly.

Hundreds of Favorites are now in use about this vicinity. Be sure to see them before you buy.

THE NEW WAY.

In above Flue Construction there are NINE Surfaces Radiating Heat, increasing the Heating Capacity with the same amount of fuel.

The above Bottom Flue Construction causes the Heat to go to the Outer Surfaces, Largely increasing the Heating Capacity and Economizing in Fuel.

The problem of getting the most heat out of the least coal had been successfully copes with by the makers of Favorite Stoves. Most every Stove manufacturer makes this same claim for his particular heating device, but facts and figures are not forthcoming to any satisfactory degree in most cases. Favorite Stoves have all the necessary credentials to bear out the broadest claims for economy of fuel and superior heating capacity. An inspection of the Stove alone will convince you of its economical fuel merits. Its construction is far in advance of all other Stoves. Its joints are better fitted, etc. Every user of Favorite Stoves gives them the highest recommend.

They do not get out of repair easily.

ARE YOU FULLY AWAKE To Your Best Interests?

Can you afford to pay too much for your Groceries? Are you receiving all that your money is capable of buying? The question of spending dollars and cents is far too serious a matter to be trifled with by ordinary mortals. Most of us like to trade where we receive the most for our money, and the number of people who are finding out that they get more Grocery bargains of the highest quality here than elsewhere is increasing every day.

The fact is absolute. Eatables are sold here at a much less figure than at other stores. We have everything in our favor---heavy buying and heavy selling. Besides the great low price advantage our store equipment gives us a great lead over others. Every modern, convenient appliance that in any way benefits the handling of Groceries we have. All these things cost money, but it insures perfect service to our customers, and satisfied purchasers means increasing trade. If you are a Grocery buyer you are familiar with staple prices and must know that the articles mentioned here are bargains. They are but a few of the many we have for you. We guarantee all goods.
